PHASE 04 // SECURITY

PROTOCOL SAFETY

OPERATIONAL SECURITY (OPSEC)

Adhere strictly to these rules.
Failure to comply results in
permanent loss of assets.

BANKING LATENCY

Do not use words like "Crypto" or "Bitcoin" in transaction descriptions. Use **"Savings"** or leave blank.

NOTE: Banks use automated filters to flag crypto keywords. This triggers 24-hour security holds. Keep it generic to ensure instant deposit.

THE KILL SWITCH

Your 12-Word Phrase **is** your money. If you share it or lose it, your funds are gone forever.

NO REVERSALS

Blockchain transactions cannot be undone.
Triple-check every address before sending.

SECURE CONNECTION

Avoid Public Wi-Fi. Use Cellular Data or a **VPN** when accessing your Vault.
